Dolores Mine Company Forced to Suspend Operations After Plant Is Burned and Stores Looted by Campa.

(By Evening Herald A. P. Leased Wire)

Madera, Mexico, July 23.—Nervousness in the foreign colony was allayed today by orders from General Pascual Orozco placing Colonel Jose Hernandez in charge of the rebel garrison with instructions to permit Americans to retain their arms.

Colonel Del Campo had sent an order to the office of C. R. Warden, manager of the Madera Lumber company's plant, demanding in the name of Orozco all arms and ammunition held by foreigners. The company officials appeared immediately by telegraph to Orozco in Juarez asking that they be allowed to retain their arms and that Colonel Hernandez be placed in authority. Hernandez is a cultured officer of military experience. General Orozco complied, ordering Hernandez to supersede Del Campo and remain in charge until Col. Alfonso Castaneda, chief of staff to Orozco and another popular officer arrived.

General Orozco expressed his regret that any foreign property should have been disturbed.

The exodus of women and children totals almost 100 per cent. Only three American women are left. The refugee trains from here carried not only American women but also scores of Mexicans.

## REBELS DESTROY PLANT OF DOLORES MINE COMPANY.

Dolores, Mexico, July 23.—Americans in the mining camp here are uneasy today over the rebel operations in this territory. Entering the town two days ago the rebels under General Emilio Campa, drove sixty Maderistas away, killing several. One rebel captain was killed, but the insurgents have become obsessed with the idea that the Maderista garrison was in the pay of the Dolores Mining company, an American concern. They immediately wreaked vengeance on the company. The plant was gutted by fire with a damage of \$5,000. The safe was blown and \$5,000 in cash taken. Heavy drafts were made on the company stores for provisions and supplies. Pack mules were taken and Americans who wish to send the women and children away have no means of sending them through messenger have started for Madera to obtain horses. All along the route between here and Madera rebel commands are stretched. The command of General Ceche Campos is en route here. The Dolores Mining company has closed its plant until normal conditions are restored.

## WIFE OF VICTIM TELLS STORY TO GRAND JURY

(By Evening Herald A. P. Leased Wire)

New York, July 23.—The gun men wanted for the killing of the gambler Herman Rosenthal, are beginning to fall into the nets. Harry Vailon, one of the five notorious gangsters who were in the "murder car" the night Rosenthal was shot, surrendered himself to the police this morning, and within ten days Deputy Police Commissioner Dougherty expects to round up the whole gang.

With the men who actually did the shooting in the tolls, the main work of District Attorney Whitman and Deputy Commissioner Dougherty will commence the task of trying to learn the identity of the conspirators who so greatly desired that Rosenthal be done away with before he could make further revelations of the relations between the police and the gamblers.

Several of New York's prominent citizens have offered to pay for a private investigation into the question of whether police partnership with gamblers led to the slaying of Rosenthal.

Commissioner Dougherty remarked significantly to District Attorney Whitman that "I guess we agree as to who is back of this killing. But the public prosecutor does not feel that Commissioner Dougherty can swing the investigation of the killing alone as he is of the belief that the police department will give no real aid."

Mrs. Herman Rosenthal, the murdered gambler's wife, came to the criminal courts building today and at once went into District Attorney Whitman's office. The widow was before the grand jury for nearly an hour. Mr. Whitman refused to discuss her testimony, but it was said she told all she knew concerning Rosenthal's charges that certain police officers were sharing in profits of Tenderloin gambling houses and told of the relations between her husband and Lieutenant Becker.

Mrs. Rosenthal came to the building under the escort of a special officer detailed from the district attorney's office, and was accompanied by her sister.

"Do you think the police would protect me from their own kind?" she asked a representative of the district attorney's office. "I am afraid of my life."

"Since Herman was murdered," said Mrs. Rosenthal, "the police made all kinds of efforts to see me. I have had high officials call me up. Why, Deputy Commissioner Dougherty tried to get me yesterday. Why should the police want to see me unless they wanted to find out how much I know before I should go before the grand jury?"

## MINORITY REPORT ON INVESTIGATION OF STEEL TRUST

Representative Littleton Favors Joint Inquiry by House and Senate As to Effect of Combine on Commerce.

(By Evening Herald A. P. Leased Wire)

Washington, July 23.—Representative Martin W. Littleton, member of the Democratic majority of the house steel trust investigating committee, today formally presented his views to the committee, dissenting from the legislative recommendations of Chairman Stanley. He agreed to sign the Stanley report with many reservations. That left Mr. Stanley with but two other members of the committee of nine in complete accord with him. They are Representatives Neal of Texas and McGillivray of Maine.

Mr. Littleton's views, to which much publicity has been given, favors principally a joint body of the senate and house to study the trust question and the exclusion from interstate commerce of corporations in restraint of trade. He declines to support a proposed bill to put upon a corporation the burden of proving it is a "real" restraint of trade.

## BOSTON CAR MEN'S UNION APPEALS TO GRAND JURY

Strikers Seek to Have Company Officials Punished for Perjury and Coercion in Violation of Law.

## TECHNICAL VICTORY FOR ORGANIZATION

(Special Telegram to Evening Herald)

Boston, July 23.—Having gained what they took upon as a technical victory before the state board of conciliation and arbitration, the striking trolley men of the Boston elevated railroad today presented their alleged grievances to the grand jury at the invitation of District Attorney Pelletier.

The district attorney also summoned before the grand jury the president of the elevated company, William A. Baneroff, and two of the directors, James Prendergast and James L. Richards.

The evidence was sought in connection with the institution of charges of coercion and perjury made against some of the road's division superintendents. In his report issued last night the state board of conciliation and arbitration held that the strikers were justified in believing that the discharge of more than 200 of their fellows was due to the activity of the men in organizing a union. "The division superintendents, in their testimony before the board, denied that the discharges were because of union activity."

Mr. Pelletier said the grand jury hearing was held under a statute which prohibits the coercion of any employee from joining a labor union. The investigation is expected to continue for several days.

## SENATE ELIMINATES FEDERAL AID TO ROAD BUILDERS FROM BILL

Postoffice Appropriation Shorn of Many Desirable Features in Report From the Committee.

## \$2,500,000 ADDED TO PAY FOR RAILROADS

Newspapers Must Publish the Names of Stockholders Once Annually If Proposed Measure Becomes Law.

(By Evening Herald A. P. Leased Wire)

Washington, July 23.—The postoffice appropriation bill, shorn of the good roads provision, proposed by the house, and embracing a revised parcels post system, with charges based on rates of distance, was reported to the senate today by the postoffice committee. The total appropriations proposed are above those of the house measure, which carried approximately \$200,000,000. One of the principal increases is the pay of railroads for transporting mails, the senate committee adding more than \$2,500,000.

In striking out the Shuckelard good roads feature, which provides for federal improvement of highways, the committee recommends an investigation by a special congressional committee and provides for no highway improvements until this commission has reported.

The Barnhardt amendment in the house bill for the regular publication of the names of stockholders of newspapers and periodicals is changed to provide for publication once a year. The parcels post section in the house bill provided a flat rate of postage for all distances. The senate provision is that of the Bourns bill slightly modified.

Senator Bourne recommends that third and fourth class mail matter be combined for the parcels post service; but the bill makes the parcels post apply only to fourth class matter.

The abolition of the present system of carrying second class mail by fast freight under what is known as the "blue tag" system is provided for. A special commission also is proposed to investigate the subject of pneumatic tube service and whether the government should purchase that now in use in various cities.

The senate committee struck out of the house bill the provision giving to postal employees the right to combine in labor unions and the right to petition congress for redress of their grievances.

Steel cars for railway mail service, which were required by the house bill to be in universal use by American railroads by 1917, also are required by the senate bill.

The house bill required the railroads to replace 20 per cent of its wooden mail cars every year, while the senate bill would give the roads one year of grace, and then require them to replace 25 per cent of their cars each year for four years.

Senator Gardner of Maine, launched an attack on the measure and counseled the senate to adopt the plan already approved by the house. Senator Gardner declared the senate committee on postoffice had been unfair to a parcels post bill he had introduced and denounced the Bourns plan as a "mockery." He criticized its limitations and declared its effect would be to give the railroads higher incomes for postal shipments than they now enjoy from express packages.

## TAFT CONSENTS TO EARLY REPEAL OF RECIPROCITY LEGISLATION

Convinced That Offer Should Be Withdrawn Since Canadians Have So Emphatically Refused to Accept It.

## ACT MAY BE MADE RIDER TO TARIFF LEGISLATION

(By Evening Herald A. P. Leased Wire)

Washington, July 23.—President Taft has indicated to several western senators who were active opponents of Canadian reciprocity that he would favor the repeal of the act.

Some of those with whom the president has talked think he may send a message to congress on the subject or will state his position in his speech of acceptance when a committee of the Chicago convention notifies him on August 1 of his nomination.

Senate leaders say that so far the president has had no direct communication with the finance committee on the subject nor sent any communication to the committee saying he favors repeal.

Mr. Taft will not withdraw his own support of Canadian reciprocity as a principle, it is understood, but will take the position that the United States should not continue an offer that Canada refuses to accept.

The reciprocity law continues in effect in the United States notwithstanding Canada's refusal to endorse it.

Senators McCumber, Heyburn, Gronna and others have urged a repeal and an amendment was put on the steel tariff bill recently passed by congress and now in conference providing for such action.

It is asserted among western senators that if any tariff measure is passed in the senate this week an amendment also will be incorporated for the repeal of the reciprocity bill. In case any one of the bills reaches the president and is vetoed it is expected he will make clear in his veto message the fact that he would approve a measure to repeal the reciprocity law.

Miss Kenney declined to do anything to quench the militant spirit which the government's "treachery" has aroused. The government, says Miss Kenney, "let the fire of revolt in the women's hearts and must accept the full responsibility for their recent protest and for their more serious protests that may be made in the future."

## POINTS TO BLUNDER AT CHICAGO CONVENTION

Swapping of California's Electoral Vote for Two Stolen Delegates He Thinks Poor Business for Republicans.

(By Evening Herald A. P. Leased Wire)

New York, July 23.—In his first speech since he returned from Chicago, Colonel Roosevelt today set forth his reason for leading in the formation of a new party. His address was delivered at a meeting of the New York state county chairmen of the national progressive party.

"No man knows better than I," said Colonel Roosevelt, "that enthusiasm and high principles can not be effective without organization and work. A great responsibility rests on you men who are undertaking the organization of a new party which is to stand for square deal democracy; which is to be the party of the people."

"It will fight on live issues, and not dead ones. It will embody a protest against the corruption in both of the old party machines. It will be a party in which ex-Democrats and ex-Republicans without regard to their political past are to come in on an exact equality and to have each the same share in the party management."

"When we get started it will be a party not only representing the people at election time, but it will represent them in party management. We are going to see to it that it is organized so that it will be impossible for any fifty-three men, chosen four years before by politicians, to stand superior to all the voters of a great state like California, and if that state has not shaped its laws according to a given call of fifty-three private men, the people shall not be disfranchised."

"My own judgment is that Messrs. Barnes, Penrose, Guggenheim and company made a poor swap when they took two stolen delegates from California in place of the electoral vote of California. They were not contented with that. They swapped the electoral vote of Massachusetts for the vote of two delegates. I think it was an expensive swap as was ever made by political managers."

## COMPLETE PROGRESSIVE TICKET IN NEW JERSEY.

Asbury Park, N. J., July 23.—New Jersey progressives in a mass convention today determined to put in the field for the November election a complete progressive ticket, but still is undecided as to the method by which the ticket shall be nominated.

The executive committee of the Roosevelt state organization met before the convention assembled. A minority that opposed an absolute break from the old organization, prevailed so far that the committee decided against any declaration for the immediate establishment of a new party. This course, it was said, opposed the view of Colonel Roosevelt, whose personal representative attended the meeting.

Former Governor John Franklin Fort unanimously was chosen chairman of the resolution committee. Mr. Fort opposed the proposition that the progressives and regulars run the same set of electors and let the voters express their preference as between Mr. Taft and Colonel Roosevelt which would be binding on the electors.

The platform declares "that we will support no candidate for public office who is not an avowed supporter of the candidacy of Colonel Roosevelt for president of the United States."

The purpose of the convention, the platform says, is to register formal protest against the result of the Republican national convention which are set forth in data from the progressive viewpoint and in conclusion the following articles of faith are set forth:

"Nomination of party candidate for president and vice president by direct primaries."

"Election of president and vice president by popular vote."

"Direct election of United States senators."

"Simpler and easier methods whereby the people may amend the constitution."

"The initiative, referendum and recall."

"The submission to the people of an amendment to the state constitution."
